

DAA member

DAA verifier

VERIFYMSG <attestmsg, sig>

```
sequenceDiagram
    participant DAA_member as DAA member
    participant DAA_verifier as DAA verifier
    DAA_member->>DAA_verifier: VERIFYMSG <attestmsg, sig>
```

The diagram illustrates a communication between two entities: a DAA member and a DAA verifier. The DAA member is on the left, and the DAA verifier is on the right. A horizontal arrow points from the DAA member to the DAA verifier, indicating the direction of the message. The message is labeled 'VERIFYMSG <attestmsg, sig>'. The lifelines of both participants are represented by vertical dashed lines.
